UNESCO - Encyclopedia of Life Support Systems (EOLSS Online)
Under the auspices of the UN/UNESCO Decade of Education for Sustainable Development, we wish to introduce to you the Encyclopedia of Life Support Systems (EOLSS). The EOLSS On-line, an integrated compendium of twenty stand alone Encyclopedias in synergetic synthesis, is the result of several years of dedicated work by a global team of distinguished scholars, organized under the auspices of the UNESCO. It is equivalent to about 235 themes with contributions from thousands of scholars from over 100 countries and edited by over 300 subject experts.

The EOLSS On-line has emerged as the largest and the most authoritative source of thematically organized current knowledge. Users will find the EOLSS On-line a convenient reference to help them in their chosen field of specialization and support their efforts in gaining a holistic understanding of many current problems through interdisciplinary subjects and transdisciplinary pathways forged across disciplines.

The EOLSS On-line is rapidly becoming the most sought-after reference site in the world. A recent count showed that the average number of hourly visitors was approximately 81,000. These figures are steadily increasing.

UNESCO-EOLSS is an Integrated Compendium of Twenty Encyclopedias. (A virtual dynamic library equivalent of about 560 ebooks and print volumes)

Earth and Atmospheric Sciences
Mathematical Sciences
Biological, Physiological and Health Sciences
Biotechnology
Tropical Biology and Conservation Management
Land Use, Land Cover and Soil Sciences
Social Sciences and Humanities
Physical Sciences, Engineering and Technology Resources
Control Systems, Robotics and Automation
Chemical Sciences, Engineering and Technology Resources
Water Sciences, Engineering and Technology Resources
Energy Sciences, Engineering and Technology Resources
Environmental and Ecological Sciences, Engineering and Technology Resources
Food and Agricultural Sciences, Engineering and Technology Resources
Human Resources Policy and Management
Natural Resources Policy and Management
Development and Economic Sciences
Institutional and Infrastructural Resources
Technology, Information, and Systems Management Resources
Area studies (Africa, Brazil, Canada and USA, China, Europe, Japan, Russia)

You can access EOLSS at http://www.eolss.net. Please click on 'Access for Institutions' on the left pane. When you get to the Search page, you may either browse the Table of Contents or perform a keyword search. EOLSS is augmented and updated on a monthly basis.
